Intelligence Career Essentials

PROFILE

Results-driven developer with expertise in JavaScript , Node.js, MongoDB , SQL , PHP , and React . Skilled in OOP with Java, I specialize in building robust, scalable applications with high code quality. Also passionate about continuous learning, I stay updated with emerging technologies to deliver innovative solutions. I am ready to contribute technical skills and problem-solving abilities to impactful software projects.

EXPERIENCE

Millimani Law Courts - Information Technology Network Support

Nairobi, Kenya

05/2024 - 08/2024

- Helped out the Networks department to solve various network issues.
- Installed Operating Systems.
- Performed PC maintenance and troubleshooting.

PROJECTS

Agricultural E-commerce Site

Designed and developed an e-commerce platform for agricultural products, enabling buyers to list and advertise their goods online. Utilized Vanilla JavaScript, HTML, and CSS to build a responsive and user-friendly interface.

LawConnect

Created a dynamic website for a law firm to showcase their services and expertise. Leveraged React.js for front-end development, PostgreSQL for database management, and implemented API principles to ensure efficient data handling and integration.
